

# Transhumanism and technological optimism in Belgium

Madrid - October 2018

## A few facts about Belgium

- 30,000 square kilometers between France, UK, Netherlands and Germany
- A very multicultural country, 3 official languages (French, Dutch = Flemish and German), everything important is also available in English
- However, living next to each other is not living with each other
- A very pragmatic country, but the country of surrealism
- Many scientists, pharmaceutical industry, many clinical tests
- European capital

## Organized technoprogressism

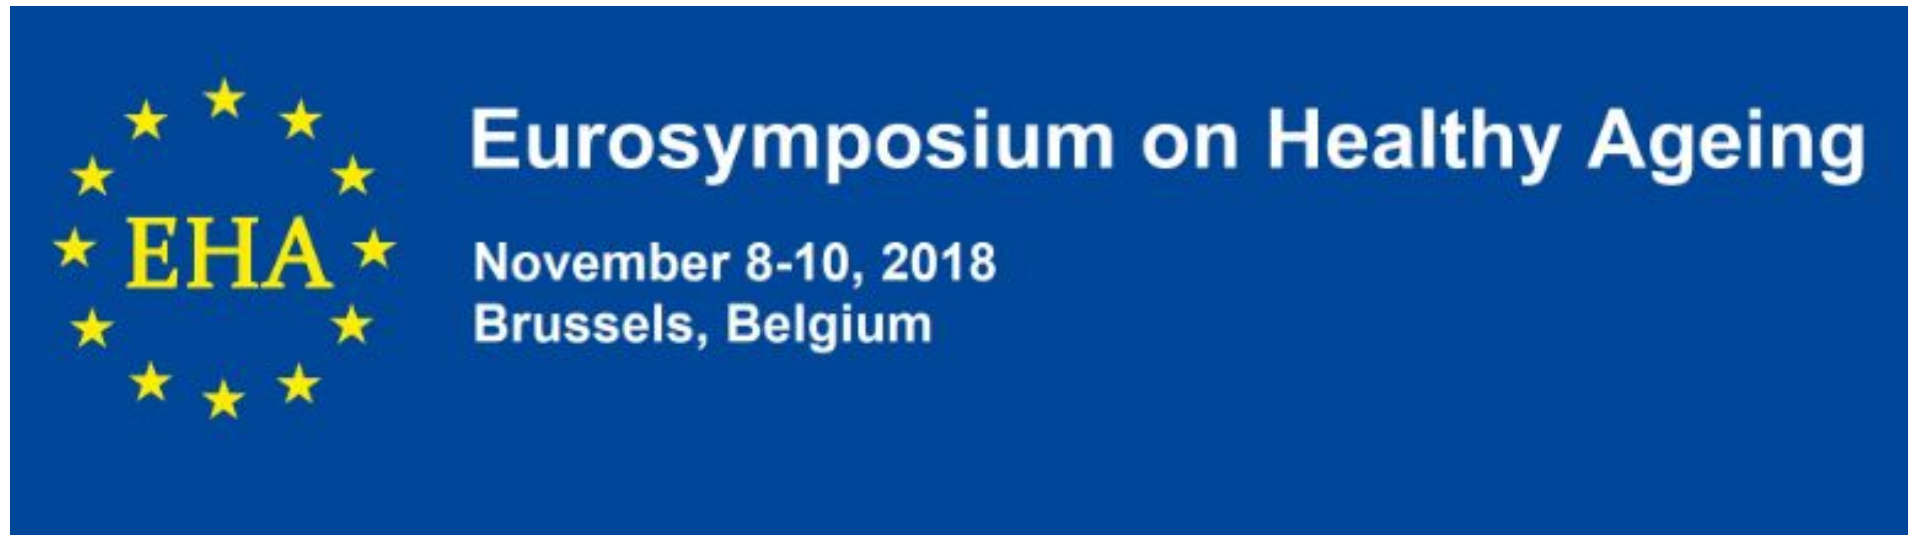

- FM2030 was born here
- Transvision 2017
- HEALES (Healthy Life Extension Society, [heales.org](http://heales.org))
- Members of the Association Française Transhumaniste Technoprog ([transhumanistes.com](http://transhumanistes.com))
- Many contacts with the French and Dutch transhumanist activists

## A few goals

- International contacts, especially European contacts
- More impact on the general public (the press), the scientists, the stakeholders
- Contacts with health actors
- The goals of the AFT-Technoprog

# Eurosymposium on Healthy Ageing 2018 (fourth EHA)
